PREMEO

Using premium palm-based ingredients, our range of industrial cooking oils and fats are the absolute choice when it comes to your professional needs.

SWEETENING
LIVES SINCE
1964

This iconic home-grown product is a testament that its brand values are being passed on from one generation of Malaysians to the next.

The products include various grades of refined sugar and premium sugar such as sugar sucralose and stevia mix to provide a balanced lifestyle for our consumers.

Fresh, creamy and tasty, our fresh milk, harvested from our own farm in Linggi, Negeri Sembilan goes through the homogenisation and pasteurisation process that makes it safe for direct consumption. We guarantee our milk reaches you within hours after it is processed. Can't get any fresher than this!

We also produce premium quality dairy products such as yogurt, cheese and kefir drinks.

Taste of
FRESHNESS

GOGOPASAR is an end-to-end e-commerce grocery marketplace. With access to the finest selection of fresh goods such as vegetables, seafood, meat and chicken sourced directly from local suppliers as well as FGV's contract farmers, GOGOPASAR ensures that only the freshest produces delivered to consumers.

GOGOPASAR essentially brings together three core elements, namely technology, networks and social commerce, connecting both the business-to-business and business-to-consumer markets with no minimum quantity of order.

Consumers can now shop for groceries at www.gogopasar.com and on the GOGOPASAR mobile app.

Currently GOGOPASAR is serving the Klang Valley area with plans to expand the business nationwide from 2021 onwards.

FRESH FOR LESS

LADANG'57

**OVER 60 YEARS
OF HERITAGE**

With passion and dedication, we have grown with Malaysia and its people since 1957. Our mission is to deepen our commitment to our nation, celebrating and nourishing our country and its heritage in artisanal farming.

Yes, when you buy a Ladang '57 product, you are supporting the Malaysian farmer and helping us to progress our ambition to build a strong nation for future generations.

You are assured of our commitment to you and your family.

SAFE. SUSTAINABLE. HIGH GRADE.

 - Banana clone
- Other crops
 - Coconut seedlings
 - Durian seedlings
 - Jackfruit J33 seedlings
 - Herbs

The backbone of the Group's waste-to-wealth initiative.

With **20 years** of experience in renewable energy, FGV has become the world's only plantation company with the most biogas plants and renewable energy initiatives. We provide consistent and reliable energy in the form of electricity generated from these plants to the National Grid, powering up nearby townships and thousands of homes. Through rural electrification, we also improve the quality of life of rural communities that do not have access to the National Grid by providing them with a steady stream of electricity.

RENEWABLE ENERGY

- 28 Biogas Plants
 - 1 BioCNG Plant
 - 11 Biogas Plants to National Grid
 - 3 Biogas Plants for rural electrification
 - 13 Biogas Plants for POME treatment
 - 4 Composting Plants
- 12.5 MW EFB Powerplant for National Grid
- 7.5 MW EFB Powerplant
- Electricity and steam to refinery
- Electricity to kernel crushing plant
- Electricity for a township
- Steam supply to Sahabat, Sabah bulking facility

Oil Palm By-Products are obtained as by-products or residues from palm oil processes. The main products produced by the palm oil mills are crude palm oil and palm kernel. However, it also produces huge quantities of residues such as sludge palm oil, mesocarp fibre, palm kernel shell and empty fruit bunches. Dry residues from oil palm wastes can be utilised to produce various type of products. Oil Palm By-Products main principal use is in the manufacturing of quality soaps, animal feed, and biofuels, among many others. It is widely used in various industries, such as in the manufacturing of candles, cosmetics, toiletries and pharmaceutical products.

BY-PRODUCTS

- Bunch Ash
- Sludge Palm Oil (SPO)
- Empty Fruit Bunch (EFB)
- Palm Kernel Shell (PKS)
- Scrap Iron
- Palm Mesocarp Fibre
- Empty Fruit Bunch (EFB) Shredded
- Scum Oil
- Decanter Cake
- Dried Long Fibre (DLF)
- EFB Compost Organic Fertiliser
- Palm Kernel Oil
- Black Soil
- Solid

PRODUCTS

- Beneficial microbes & plant growth enhancer
- Compound fertiliser
- Mixture fertiliser
- Straight fertiliser
- Compact fertiliser
- FGV FOF 48

EVERY LIFE DESERVES BETTER NUTRITION

Our range of animal feed is formulated from the best selected materials; proven to provide the maximum benefit for growth development, immune system and reproduction.

Fortified with minerals and vitamins, Alma provides the ideal combination of plant-based materials to offer the most optimum and efficient nutrition solutions.

NATURAL . HIGH PERFORMANCE . SAFE.

INNOVATIVE DIGITAL AND SMART **AGRICULTURAL SERVICES**

In line with the government's effort in modernising agriculture via the use of digital technology, FGV is providing services in the areas of precision and promoting digital and smart farming in cash crops such as paddy and pineapple. The main objective is to optimise production, cost and reduce environmental impact.

With the success of our in-house integrated farming projects, FGV is able to replicate the concepts and initiate the development of SOPs to offer innovative agricultural services for local farmers and its contract farmers alike.

MORE THAN 45 YEARS EXPERIENCE IN TRANSPORTATION AND LOGISTICS

Experienced logistics provider with our own fleets and reliable partners nationwide are ever ready to offer tailor-made transportation and logistics solutions to our customers.

With the recognition of HALAL Logistics, every aspect of Halalan Toyyiban and hygiene practices are observed to ensure the halal status of the products carried.
